

The WorldPeace Foundational Tablet – The Infinite Potential (God)

This is the foundational hidden/secret knowledge of the Infinite Potential (God) that no ascended master has talked about in the prior ages. But now in the Third Millennium Age of Aquarius, human knowledge has sufficiently evolved to begin to comprehend more of it.

If you don't believe me when I tell you about earthly things, how can you possibly believe if I tell you about heavenly things? Jesus (John 3:12)

The above is one of the secret understandings that the most awakened/ascended/conscious spiritual masters have refused to discuss because until this Third Millennium the social consciousness of this earth dreamscape/this timeline was not evolved/awakened/aware enough to even begin to comprehend the truth.

THIS IS THE FOUNDATIONAL TRUTH OF EVERYTHING. Everything is a dream. You control your dream. All the spiritual masters taught that if you think anything is real you become trapped in it until you wake up. Specifically, if you become attached to anything in the earth dreamscape it will imprison you such that when your body dies, it will reincarnate back into the same dream and you will be imprisoned by your own thoughts until you modify them or discard them. To modify or discard a dream you have to awaken to the fact that you are dreaming in the dreamscape you find yourself.

What I have written below is to help you to remain free of dreams which imprison you.

The nature of human beings is to control others and to prey upon others. If you want to avoid being controlled and live free, you have to follow your own dream which looks at everything as a potential entrapment.

Jeremiah 31:33 and Hebrews 10: 8, Old and New Testament say that God has put his laws in every heart and mind and to

know the truth all you have to do is study, pray and meditate. No one needs to teach anyone. No one needs to follow anyone.

Every religion is an earthly trap designed by predatory men and women to entrap and enslave others.. Jesus teachings were spiritual and relate to the spiritual kingdom of God and heaven and freedom that knowledge and awareness brings to human beings who are for the most part trapped in this earth dreamscape.

All prophesy is a trap. It dictates a future that entraps or enslaves humans into a belief in that prophecy. The more people that believe that prophecy, the more of that prophecy will come true.

10% of all prophecies will come true. But which percent is the question. A 2000 year old prophecy cannot possibly apply to the current world human society. Except for 10%.

If you want to know what your future will be, examine what you are expecting for your future not what someone wrote 2000 years ago.

If you want to increase the peace in the world human society, focus on that future not on some dark gloomy evil imprisoning future.

Jesus aid ask and receive, seek and find, knock and enter. I you have the faith the size of a mustard seed you will say to the tree move from here to there and it will move.

Jesus is not a liar. What Jesus is saying with these two verses is that you define your future because the future is pliable.

All the problems in the world are due to believing those problems are set in stone. Nothing is set in stone.

THERE ARE TWO CONCEPTS OF GOD IN THE
WORLD HUMAN SOCIETY

a) The Infinite Potential (the everywhere present all powerful all inclusive democratic God) in contrast to the b) Anthropomorphic super human elitist/exclusive human like God.

b) The anthropomorphic (human form) God is considered all powerful. God is omniscient, meaning all-knowing; and omnipresent, meaning present everywhere at all times. This God is the medium through which the Infinite Potential God communicates with human beings. Most human beings do not distinguish between the all-inclusive Infinite Potential God and the limited consciousness of the anthropomorphic God concept which causes confusion about the definition of God in the earth dreamscape.

ASPECTS OF THE INFINITE POTENTIAL (GOD)

The Infinite Potential is my term for the most all inclusive God of ALL THERE IS.

1. The Infinite Potential of everything did not have a beginning and therefore will have no end. It is impossible for human beings to conceive of anything that does not have a beginning or end. So for humans to consider the Infinite Potential God had no beginning just will not compute in their mind..

2. Within the Infinite Potential God, the absence of light is not darkness. No human can conceive of this: fully wrap their head around such a concept.

3. The Infinite Potential has no time. Past, present, future are merged into the Now. There is no time. Everything is now.

4 The Infinite Potential includes everything that has been, is and will be.

5. The Infinite Potential God is not tangible (no physicality) nor intangible.

6. Within the Infinite Potential is the potential of the all inclusive everything

7. The Infinite Potential extends infinitely (forever) into the past and beyond and infinitely forever into the future and beyond

8 The Infinite Potential manifests many dualistic (hot and cold, high and low, big and small, light and dark are dualistic concepts) spiritual dreamscapes which manifest many infinite tangible. (earth like) dreamscapes. The Infinite Potential (Spiritual Dreamscapes) are infinite and immortal. Everything in the earth dreamscape is finite and mortal.

9 The Infinite Potential is One and all the parts of the Infinite Potential contains the potential of everything.

10. In the Infinite Potential (God) there is no dualistic distinction between whole and parts. They are one.

11. When a soul loses its consciousness in its earth dreamscape, it expands back into a spiritual dreamscape and then maybe into the all inclusive Oneness of the Infinite Potential.

12. Every soul is an aspect of the Oneness of the Infinite Potential, and the oneness of every spiritual dreamscape, and the oneness of every tangible dreamscape. Therefore, every soul has the experience and knowledge of All of the Infinite Potential. As a part of the Infinite Potential the soul/spirit has access to every part of the Oneness of the Infinite Potential. Every consciousness is a holistic replicate of the entire Infinite Potential

13. The experience of the Infinite Potential is extremely subtle. More subtle than a spiritual dreamscape which is more subtle than the earth dreamscape. The intensity of experience is the greatest in the tangible dreamscapes and least within the intangible Infinite Potential.

14. Nothing is real, everything is a dream, an illusion/delusion in the earth dreamscape.

15. There are infinite parallel spiritual/tangible dreamscapes with one tiny difference. Parallel universes are infinite and distinguished by as little as one atomic particle difference or one event moment difference one to the other.

16. Every soul has experienced every infinite script tangible and spiritual because the Infinite Potential is a hologram. The individual parts contain all parts.

17. Nothing is created because the Infinite Potential is all inclusive past present and future. Discovery and creating in the earth dreamscape is in truth remembering. There is nothing to learn, nothing to discover. All there is, is remembering not creating.

18 The Infinite Potential (God) is One. All the parts/aspects are an illusion delusion

ASPECTS OF THE EARTH DREAMSCAPE

1 Everything you believe consciously about the tangible reality is an illusion/delusion

2 In the dualistic earth dreamscape where the delusion of time exists, dualistic intangible spiritual dreamscapes manifest from the Infinite Potential and from the spiritual dreamscapes manifest dualistic tangible dreamscapes. In time, in the earth dreamscape, the dualistic tangible dreamscapes disintegrate back into dualistic spiritual dreamscapes that disintegrate back into the Infinite Potential which is One.

3. The earth is one of infinite dualistic tangible dreamscapes manifesting from an infinite dualistic intangible spiritual dreamscape manifesting from the all-inclusive Infinite Potential (God) NOT DUALISTIC:ONENESS.

4 In the earth dreamscape there is the appearance of duality (up/down; hot/cold; good/bad; beginnings/endings, near/far, high/low, big/small.)

5. The spiritual dreamscapes are conscious. They are a

consciousness consisting of the oneness of infinite spirits/souls consciousness.

6. The earth dreamscape is a tangible medium, with infinite incarnate souls. When the soul disengages from its body/vehicle/container, the body, vehicle, container disintegrates back into the tangible earth medium and the soul consciousness awakens into the spiritual dimensions from where it came

7. When the soul disengages from the earth dreamscape, its consciousness expands back into/awakens back into its greater consciousness of its spiritual dreamscape.

8. At every level for every spiritual and every tangible dreamscape there are conscious souls that are more or less awake/aware than other souls.

9. Time is relative to dreamscapes. So what seems like forever in the earth dreamscape is less than a nano second in the spiritual dreamscape and virtually nothing in the Infinite Potential.

INDIVIDUAL CONSCIOUSNESS

How does Jesus saying “ask seek find” work?

You came here because this is where you wanted to consciously be incarnated into a human, body, vehicle in this time and place.

1. In order to experience some aspect of a spiritual or tangible dreamscape, the majority of a soul's total memory/knowing is blocked so that the soul can focus on the aspects of the spiritual or tangible dreamscape necessary to experience its intended purpose in its life consciousness incarnate in that dimension. There would be nothing to experience in the earth dreamscape if one is totally aware/conscious/alive/incarnate in the earth dreamscape. The earth dreamscape experience is more intense because the souls consciousness is limited.

2. The problem is that to be trapped in the earth dreamscape is about the significantly reduced level of peace and harmony. When one is trapped in this tangible earth dreamscape illusion, delusion. You are so far down (deeply attached) it feels like up. You are so attached it feels real.

3. No matter where you are in an earthlike dreamscape or spiritual dreamscape, you are awake/conscious here/there because you wanted to be.

4. If you become trapped by being attached to a part of an earth tangible dreamscape you may never escape but your body dies and your soul reincarnates.

You are confused that the earth dreamscape is the real dreamscape when nothing is real. So there is nothing to hold onto.

5. When earth human beings begin to think that the earth dreamscape is the truth and the spiritual dreamscape the illusion, they become confused and lost and trapped for a time in the illusions, delusions of the earth dreamscape.

6. You script your conscious future by jumping dreamscapes (ask and receive, seek and find, knock and enter. Mt 7: 7) ie, If you do not have a companion in your earth dreamscape and want one, you project one into your future and jump into that dreamscape. This is what Jesus meant regarding the future as being pliable. He described the future as asking and receiving, seeking and finding, knocking and entering.

7. Individual conscious spirits/souls incarnate into every aspect of a significantly more tangible earth dreamscape manifested by a spiritual dreamscape. These tangible dreamscapes are not conscious. They are soulless mediums of tangibility. When a medium has an incarnate conscious soul it is alive. When it does not have an incarnate soul it is just a tangible medium. All mediums can be inhabited by a soul/spirit; a grain of sand, a rain drop, a rock, a mountain, a planet, a star.

8 You cannot know what someone else is thinking

9. To be able to comprehend the above, one has to be awakened to a level of expanded consciousness that will allow it. Only a few human beings at any point in its delusion/illusion earth timeline within an illusion delusion tangible dreamscape are more than minimally awakened and able to contemplate the infinite, immortal God that is the Infinite Potential.

10. All the ascended masters remind others that the earth dreamscape, as are all tangible or intangible dreamscapes, illusions, delusions and the common warning is to not become attached to any part of it. To be attached to anything, is to be locked up in a jail cell.

11. It is easy to fall into the delusion, illusion of the earth dreamscape because it feels real whereas the less tangible spiritual dreamscape does not. It is difficult to fully return back into the spiritual dreamscape with even a single attachment. The more anchored one is in the earth dreamscape, the more work it takes to fully return to the spiritual dreamscape and remain there in the greater peace..

12. Fear draws and manifests fear. It is an increasing merry-go-round until you become aware and wish to be free.

13. Every assumption is true and false in the spiritual dreamscape

QUANTUM ISSUES AND TIME LINES

1. How long does quantum linking last.

2. Time lines can partially merge. You assume I am eating a white ice cream cone when I am in my mind reality eating a pink one.

3. Your life is your created projection.

4 When you examine something it becomes real more than a dream
